**The News.**

We have Liverpool dates to the 27th ult., by the steamer *Persia*. The Atlantic cable, which has so far lain in the bottom of the ocean for the past few months, again begins to claim public attention. The large ship and her crew, and a serious defect discovered a few miles from the Valentia shore. The probability is that a good many more such defects might be readily discovered. Dreadful news are reported daily, and previous to yesterday, Spain had formally declared war against Mexico. An Anglo-French fleet, it is reported, will leave on the 19th for the Gulf, to oppose any filibuster expedition against Central America.

Douglas' visit to the South will put the cigar drivers into consternation. On leaving New Orleans, the Little Glass was exposed to the boat by the Mayor and Common Council, and a salute of one hundred guns was fired. So the telegraph says, and the telegraph always tells the truth always!

A despatch from Savannah states that the yacht *Wanderer* landed a cargo of 350 slaves at Japu Island, near that place and that from thence they were conveyed past the city in a steamer and scattered through the country.

There was a regular jail delivery at Rochester on Sunday night. Fifteen prisoners made their escape by letting themselves down into the Genesee River by the rope with which Mr. Scott was hung.

There is no important change in the Eastern Markets. Dressed Hogs have declined 500 per 100 lbs since Saturday.

**CONNECTICUT.**—The Republican State Committee of Connecticut have called a Convention, to meet at New Haven, Wednesday, January 12th, to nominate candidates for Governor, and other State officers. The call is comprehensive, being directed to all the Freemen of Connecticut, who are opposed to the National Administration.

**Correspondence of the N.Y. Commercial Advertiser.**

WASHINGTON, Dec. 9.

Some excitement exists here in regard to the determination of the Administration to nominate Mr. Douglass as their candidate for the Democratic party, and to signify his overthrow by disavowing him as chairman of the committee of territories. The President issued his mandate that Mr. Douglass should no longer be an officer of his, nor of the Democratic party.

He has been in the Senate to-day, which was held for the arrangement of the committee, it was attempted to exclude Mr. Douglass. The master produced some excitement and opposition, and the caucus broke up leaving the question unsettled. But he is now out of the Senate.

The first two columns of the President's message are intended as an answer to Douglas' stump speech, and to the arguments of the late elections. So having been answered, he must now be sentenced to exclusion from the Democratic party, and to be cast out of the Senate.

The money he had was principally gold, mostly small coin. The first proposal was that Mr. Douglass should go to MacKinnon, but then it was afterwards agreed that Douglass should go and the Senator return to Ottawa, it being necessary that one of the partners should be at home. The witness did not know how the deceased came by the note for \$217, found in possession of one of the defendants. Though he might have got that after the latter left him.

Policeman GARLICK was the next witness examined. He testified briefly, that when information was received of the condition of Larr and the circumstances connected with the master, he went down to GALLIGAN's boarding house in the Third Ward, in search of Wilson. Mr. GALLIGAN told him that Wilson had gone away. Afterwards found that Wilson was staying at the house of Louis AZUZ, in the Second Ward. Wilson had gone to bed when he got there. He went up to the defendant's bed-room. The Clerk knocked at the door and said that there was a man there, who wanted to see Mr. Wilson. His wife said that he could not be seen. The policeman then said he was an officer, and threatened to break in the door if they did not open it. The door was then opened, when the officer asked Wilson how much money he saw Larr have. The latter said \$260. Said he saw Larr change \$100 in paper money to him in the Detroit and Milwaukee line as a freight boat, for the winter, running between this city and Grand Haven. The Company have chartered her for two months, and they also talk of employing the propeller *Ogontz* for a short period, as they are now receiving quite a large quantity of freight for shipment by the D. & M. R. R. The *Chrysanthemum* will probably leave on her first trip to day.

The first two columns of the President's message are intended as an answer to Douglas' stump speech, and to the arguments of the late elections. So having been answered, he must now be sentenced to exclusion from the Democratic party, and to be cast out of the Senate.

**Destructive Fire at Galtier's Building in Springfield**—*See* Correspondence of the Chicago Free and Tribune.

CASES, Dec. 10.

About half past eight o'clock Wednesday night a fire broke out in Springfield block, in the store of Taylor, Edwards & Co., which spread so rapidly that it was feared that the entire block would be destroyed. The firemen worked valiantly on the spot, and every exertion made to stay the progress of the flames, but five buildings were entirely destroyed and others considerably damaged. Taylor, Edwards & Co., in whose store the fire originated, lost their entire stock at \$10,000.

**Death of Judge Nash.**—We learn from the Fayetteville *Reflector* of the death of the venerable and upright chief Justice of North Carolina. He died in his sleep.

The Hon. Frederick Nash, the Chief Justice of the Supreme Court of North Carolina, died at his residence in Hillsborough on Saturday morning, the 4th inst. He had but just overcome a recent attack of sickness, and was in health but just recovered from a severe attack of rheumatism, when he was a member of the Synod of the Presbyterian Church, which recently met in that place. He was born in Newbern, in 1781, and represented that town in the Legislature in 1804 and 1805. He was a man of great personal worth, and was well known in the past. He was a good man; an upright, learned and incorruptible judge, whose memory postively will do justice to.

**Washington Gossip.**—The New York Tribune correspondent writes under date of December 5th:

"The President said to-day he expects our Japanese consuls home in May, bringing here a large sum of money.

The prospect is that the discussion of the agitating topics opened by the President will consume so much of the session as to leave little time for practical business.

Senate Bill is received back into the Democratic fold, but Frederick will be said to be more benevolent than ever.

Douglas stock has fallen rapidly since the Virginia State Convention pronounced so decisively against him."

**DARING ROBBERY AND LUCKY CAPTURE.**—Mr. James W. Norton, U. S. Express messenger, came new losing \$2,200 last evening, and, when he reached his picket, in the night, at the Toledo station, he noticed a man going out of the office, down into the depot and making for the crowd of eastern going passengers. At the same moment he missed a package of money, and that started under the train. The thief had the package some feet from him, when it was afterwards found. The man, who gave him his name as O'Brien, is now in jail.

We congratulate Mr. Norton on his timely discovery of the thief.—*Cleveland Herald*, Dec. 11.

**ILLNESS OF Gov. SLADE.**—We are pained to hear that Ex-Gov. Slade is lying dangerously ill at home in Vermont. His death would not be expected to his friends any day. We trust he may yet recover.—*Cleveland Herald*, Dec. 11.

**Business Notices** appearing in the Local Column, will be charged 5 cents per line for the first, and 10 cents per line for each insertion thereafter.

MILWAUKEE:

TUESDAY MORNING, DEC. 14.

The Detachment of Douglas.

The removal of Senator Douglas, from the

Chairmanship of the Committee on Terri-

tories, by the formal vote of the Dem-

ocratic Senatorial Caucus, was demanded, it

is now said, by President BUCHANAN. He

desired, by this emphatic act, to notify the

Democratic party throughout the Union, that

Mr. Douglas was regarded at the White House

and the Capitol as having denied the faith, and

being worse than an infidel. No doubt the Presi-

dent was emboldened to strike this blow, by the

result of the Democratic Convention in Virginia,

where the Administration was endorsed and

Douglas indirectly censured. The reason for

which Mr. Douglas was then punished by his

Democratic peers of the U. S. Senate, was his

recent caresses in Illinois and the peculiar doc-

trines which he announced and defended in his

campaign speeches. The "Popular Sovereignty"

which formed the staple of Mr. Douglas'

doctrines and the battle-cry of his followers, is a

very different thing from the "Popular Sove-

reignty" which the Administration affects to ad-

mire, and the South is willing to tolerate.

Mr. Douglas according to the latest exposi-

tion of his views, insists that Congress cannot

interfere with Slavery in the Territories, either

for prevention, or protection, but that the Terri-

torial Legislatures can. The Administration, the

Supreme Court and Democratic South maintain

the Territorial Legislatures are wholly in-

tructed from meddling with the question of

Slavery; that the Institution is superior to the

local law; and that Congress not only can, but

should, intercede for its protection in the Terri-

tories. Here is a broad and apparently irrecon-

cile difference between the Douglas and Bu-

chanan wings of the Sham Democracy. Mr.

Douglas will no doubt carry with him a majority

of the party at the North, but Mr. BUCHANAN will

be sustained by the entire South, and, in the

end, the North will "honor" it, as usual. The

blow just struck at Mr. Douglas is a bold one,

and is at once a declaration of war on the part

of the Administration, and a signal for attack to

its adherents throughout the country. As Mr.

Douglas is not the man to submit quietly to

such a defiance, we may look for war at times

when he returns to Washington. "It is a very

pretty quarrel, as it stands."

The Red and Black Republicans have

Belligerent Liberty.

There is a close resemblance between the

red republicans of Europe and the black repu-

blicans of America. Both appear to be

almost to be identical—the overthrow of

existing governments that their subversive mo-

ties rise to power and place upon their ruins—

In accomplishing their base designs, they each

appear to possess a happy faculty of smelling

danger from afar, but are totally incapable of

detecting it when it comes.

The recent "Morals case," which has created

so much comment from the restive agitators, is

an excellent example of this disposition. At the

same time so much is being said about this

as an infringement on religious liberty, and

the like, that the red republicans of Europe

are still spouting the words of the "Red"

and "Black Republicans."
